***New Referrals Are Currently Being Accepted!***

The convenience of Telehealth ensures access of our neurology consults to our neighbors who will benefit most. We even have staff ready and willing to help inpatient residents with technology concerns.

The Connecticut Center for Psychiatric Wellness was born out of a desire to create a space for all Connecticut Residents, from children to the elderly, to receive accessible, convenient, passionate, caring, and most of all – **responsible**, medication management related to mental health care.

While celebrating a telehealth model, CCPW is also a serious practice at the forefront of innovations in mental health care, technology, and providing the best patient care experience possible. Five uniquely qualified, multispecialty providers, supported by a dedicated office staff of five, standby to help with everything from navigating technology, to welcoming new patients, handling pharmacy and insurance questions, and providing superior care.
